

BTEC Creative Media Production Extended Diploma - P030

This is an exciting level 3 course which will prepare you for work within the media industry as well as equipping you with the skills to progress to apprenticeships and higher level qualifications such as a degree. You will work with media professionals both inside and outside of the college during project work. The course covers all aspects of video and moving image production, including scriptwriting, production and post production editing techniques.

COURSE DETAILS

During this course you will explore different media concepts, theories and practices whilst designing and creating m any short productions such as music videos, documentaries, script writing and short films. This allows you to build up footage for a show reel, needed for future employment and educational progression. The fundamentals of creative media practice in the industry are embedded throughout and you will be tasked with carrying out m any of the media industry roles such as directing, cinematography and editing. You will be able to demonstrate all of the skills you have built throughout the year in a final major project, showcasing your creativity and hard work - the same model applies for the second year of study with us too. All of your assessments are carried out during 'college-based projects' meaning there are no exams within this course. During your time with us you will develop valuable employability skills such as informing ideas, problem solving, technical skills, professional practices and communication skills. Research skills, pre-production/planning knowledge, production and post-production experience gained during your time with us will support you in taking your next steps after this course.

All BTEC Nationals attract UCAS points that equate to similar-sized general qualifications. Click on the links below for more information:
