

UAL Music/Music Technology Diploma - P065

Units in this area:

- Aural Perception Skills
- Listening Skills for Music Technologists
- Music Theory and Harmony
- Music Performance Techniques

Performance: You will learn about how to choose a balanced repertoire, good practice and rehearsal schedules along with working to a timescale. You will be a member of one of the several groups that we form every year and will take part in regular performances.

Units in this area:

- Contemporary Songwriting Techniques
- Working and Developing as a Musical Ensemble

Technology: What's the use of getting a good band together, working hard and then producing a weak demo? You will learn how to record successfully and to understand just what to use as demo material.

Units in this area:

- Music Production Techniques
- Sequencing Systems and Techniques

Industry: Who does what in the music industry? Learn about why you need a manager or an agent, what the A&R department will do for you, the benefits and pitfalls that await artists and (most importantly) how to earn money from your music.

Units in this area:

- The Sound and Music Industry
