

A photograph of three students in a classroom setting. Two students, a young man and a young woman, are looking at a white drone on a desk. The young man is holding the drone's remote control. In the background, another student is visible, and there are computer monitors and educational posters on the wall.

## Digital and Computing Technologies - Intermediate - C053

Choosing the Intermediate Digital and Computing Technologies Study Programme is a great decision to make for lots of reasons. You will learn about the online world and technology systems, and develop the skills to create and work with digital assets including audio and graphics, as well as the opportunity to develop apps and work with other software. This qualification will help to make you technology savvy, equipping you with the skills valued by employers. This study programme will also prepare you for progressing onto the next level of study.

### COURSE DETAILS

This study programme includes:

### ENTRY GUIDELINES

A relevant level 1 qualification with level 1 English and maths or 3 GCSEs at grade 3/D or above (including English Language and maths).

A satisfactory interview, assessment school report or reference.

If English is not your first language, you may need an assessment before enrolling on this course. To discuss further, please contact the ESOL department - 0151 551 7144.

### ASSESSMENT METHOD

Two units are externally assessed by an online examination and the rest of the units are assessed by a series of assignments. Each unit will be graded as Pass, Merit or Distinction and the overall grade achieved at the end of the qualification will be determined by the individual unit grades.

## ADDITIONAL INFORMATION

Selection is by interview and academic reference.

Regular attendance and commitment to the course is essential.

To learn effectively on your course you will need to use certain items of equipment and undertake particular activities. We will provide these for your use whilst in College, but to enhance your learning experience further we require you to make a contribution to trips throughout the year. Do you need support with the cost of this?

## WHERE CAN I PROGRESS TO?

Employment in a variety of digital and computing environments. Achievement of a merit in the overall grade together with at least a GCSE grade C or equivalent in English and maths may enable the progression to the next level of study.

Explore potential careers via [Career Match](#) — it provides current local data on wages and employment prospects.
