

Certificate in Construction Skills - Brickwork (Part-time) - R274

This course is funded by Liverpool City Region Combined Authority's Adult Skills Fund.

This is a Level 1 programme that will prepare you for re-engagement into education.

It will develop basic practical skills in preparation for progression onto a Diploma course which is recognised within the industry.

COURSE DETAILS

You'll dive into hands-on activities that build your brickwork expertise, learning the specialist techniques used by professionals in the trade. Alongside this practical experience, you'll explore essential theory that highlights safe working practices in the construction industry. You'll also gain a solid understanding of the tools, materials, and methods used not only in bricklaying but across a range of construction trades. Basic health and safety in brickwork is essential to ensure a safe working environment for everyone on site. This includes wearing the correct personal protective equipment (PPE) such as hard hats, safety boots, gloves, and eye protection to prevent injuries. Workers must be trained to handle tools and materials safely, use proper lifting techniques, and keep the work area clean and free from hazards. It's also important to follow safe procedures when working at height and to be aware of the risks posed by dust, noise, and manual handling. Understanding and following these basic safety measures helps prevent accidents and promotes a responsible, professional approach to bricklaying.

TIMETABLE INFO

Tuesday and Wednesday 18:00 — 21:00

Start Date: September 2025 and February 2026
