

Performing Engineering Operations Certificate - E011

If you want to develop engineering skills for industrial or non industrial fields such as manufacturing or maintenance engineering then this is the course for you. You will be introduced to a range of skills to help get you started in the industry.

COURSE DETAILS

This course will enable you to study a wide range of skills, all of which will help you on your chosen career pathway, moving into employment or further training. You will get the opportunity to gain a nationally recognised vocational qualification linked to your chosen career. Also, this course will help you to improve your maths, English and ICT, plus develop the personal and social skills which employers look for. You will be given support and guidance throughout your learning journey and your progress will be reviewed with you regularly.

Units you will study are:

- Working in engineering
- Carrying out basic fitting techniques
- Communicating using CAD systems

ENTRY GUIDELINES

- This course is for students aged 16-18.
- A relevant Entry Level qualification or three GCSE at Grade 2/E or above (including English and maths).
- Satisfactory interview, assessment and school report or reference.
- Students need to be able to handle and use a range of hand and machine tools.

If English is not your first language, you may need an assessment before enrolling on this course. To discuss further, please contact the ESOL department on 0151 551 7144.

EQUIPMENT REQUIRED

To learn effectively on your course you will need to use certain items of equipment and undertake particular activities as part of your studies. To further enhance your learning experience the following will be required: Personal Protective Equipment - £60 Educational Visits - £50 If you need support with these costs, don't worry, click on the link below and complete a bursary application form.

<https://www.wmc.ac.uk/student-support/financial-support/bursaries-loans> Equipment purchased will be yours to keep and you will be able to use them for practice at home and in your future career. N.B. prices correct as of 23/06/2021

ASSESSMENT METHOD

Students are assessed through portfolio of work both practical and theoretical.

ADDITIONAL INFORMATION

Students need the maturity, independence and motivation to attend college regularly and on time, participate to the best of their ability and behave in a responsible manner.

The course has a large element of workshop activity.

Are you aged 16-18?

Study programmes are full-time courses for 16-18 year olds which include:

- A qualification such as BTEC Extended Diploma
- Meaningful work experience or preparation for work
- English and maths, if you don't already have GCSE grade A* - C or Grade 4 and above in English and maths
- Non-study activities such as tutorials, voluntary work, fund-raising/charity work, sport or trips

WHERE CAN I PROGRESS TO?

This is a recognised industry based award and as such provides students with knowledge and skills at the level which employers recognise as important to the industry.

Explore potential careers via [Career Match](#) — it provides current local data on wages and employment prospects.

You could progress onto the following Wirral Met course:

- E013 - Engineering Diploma
